- [What smart speaker should I buy?](#)

Amazon Echo vs. Google Home	
\$179.99	\$129
Seven-microphone array	Two microphones
Powered by Amazon Alexa	Powered by Google Assistant
More than 3,000 Alexa Skills to do everything from requesting an Uber to getting a pizza delivered	Integration with Google's massive search background
Major smart home platform for controlling lights, door locks, thermostat	Multi-room functionality to play music simultaneously throughout house

A comparison image showing two smart speakers side-by-side. On the left is a tall, grey, cylindrical Amazon Echo with a blue light ring at the top. On the right is a shorter, white, rounded Google Home with a blue light ring at the top. The background is a light, textured surface.
