"Operating receipts" are the monies received and utilized during the library's fiscal year to support the provision of ongoing, day-to-day library services. PERSONNEL (13.1 - 13.46)

Include all positions funded in the library's budget whether those positions are filled or not. Report position figures as of the last day of the fiscal year. Include only paid employees. Do NOT include volunteers.

Report personnel in the appropriate categories based on the type of library work being performed rather than on an employee's educational qualifications.

The FTE (full-time equivalent/employee) calculator utilizes the IMLS/PLSC national standard for a full-time work week as 40 hours per week. Illinois libraries should report each staff member's hours per week based on the number of hours worked. If your library considers 35-39+ hours per week as a full-time work week, then report using those figures. DO NOT inflate the hours your library considers as a full-time work week in order to force the resulting calculation to equal 1 FTE. For national comparison purposes, your library must report the total hours per week based on your local standard. For example,

for an Illinois library that considers 37.5 hours per week as a full-time work week, the FTE calculation reported nationally will be .9375 or .94 rather than 1.00.

PROGRAMS, ACTIVITIES & ATTENDANCE (15.1 - 15.38)

SYNCHRONOUS PROGRAMS

A synchronous program is any planned event which introduces the group attending to any of the broad range of library services or activities or which directly provides information to participants.

Programs may cover use of the library, library services, or library tours. Programs may also provide cultural, recreational, or educational information, often designed to meet a specific social need. Examples of these types of programs include film showings, lectures, story hours, literacy, English as a second language, citizenship classes, and book discussions.

Count all programs, whether held on- or off-site that are sponsored or co-sponsored by the library. Exclude programs sponsored by other groups that use library facilities.

Note: For more information, please refer to the Counting Opinions login screen for links to helpful worksheets and guides.

SELF-DIRECTED ACTIVITIES

A self-directed (asynchronous or passive) activity is any planned event for which the patron can participate on their own (instead of at a designated time with a group). Registration is not required. A staff member may monitor the activity but may or may not directly interact with the participants. Examples of these types of events include drop-in craft sessions, take and make kits, library scavenger hunts (when not done as part of a group), etc. For guidance on Virtual Asynchronous (self-directed) activities and views, please refer to 15.37 Total Number of Asynchronous (Virtual) Program Presentations, and 15.38 Total Views of Asynchronous (Virtual) Program Presentations.

Libraries are required by statute [75 ILCS 5/4-10(3), 75 ILCS 16/30-65(a)(6)] to provide a statement as to the number and character of items in the library's collection available for use as of the last day of the fiscal year report period.

This section of the survey collects data on selected types of materials. It does not cover all materials (i.e., microforms, loose sheet music, maps, and pictures) for which expenditures are reported under Print Materials Expenditures, Electronic Materials Expenditures, and Other Material Expenditures. Under this category report only items the library has acquired as part of the collection and cataloged, whether purchased, lease, licensed, or donated as gifts that have been purchased, leased or licensed by the library, a consortium, the state library, a donor or other person or entity. Included items must only be accessible with a valid library card or at a physical library location; inclusion in the catalog is not required. Do not include items freely available without monetary exchange. Do not include items that are permanently retained by the patron; count only items that have a set circulation period where it is available for their use.

PATRON SERVICES (19.1-19.2)

This section gathers information on services the library provides to its patrons. Please fill in the information requested.

Reference Transactions

Reference Transactions are information consultations in which library staff recommend, interpret, evaluate, and/or use information resources to help others to meet information needs.

NOTES:

- (1) A reference transaction includes information and referral service, scheduled and unscheduled individual instruction and assistance in using information sources (including websites and computer-assisted instruction).
 - (2) Count Readers Advisory questions as reference transactions.
 - (3) Information sources include (a) printed and nonprinted material; (b) machine-readable databases (including computer-assisted instruction); (c) the library's own catalogs and other holdings records; (d) other libraries and institutions through communication or referral; and (e) persons both inside and outside the library.
 - (4) When a staff member uses information gained from previous use of information sources to answer a question, the transaction is reported as a reference transaction even if the source is not consulted again.
 - (5) If a contact includes both reference and directional services, it should be reported as one reference transaction.
 - (6) Duration should not be an element in determining whether a transaction is a reference transaction.
 - (7) Do not include transactions that include only a directional service, such as instruction for locating staff, library users, or physical features within the library. Examples of directional transactions include, "Where is Susan Smith? Can you help me make a photocopy?"
- If an annual count of reference transactions is unavailable, count reference transactions during a typical week or weeks, and multiply the count to represent an annual estimate
- A "typical week" is a time that is neither unusually busy nor unusually slow. Avoid holiday times, vacation periods for key staff, or days when unusual events are taking place in the community or in the library. Choose a week in which the library is open its regular hours.

Deputy Director's Report: July 2026

Building & Grounds:

The library weathered the intense storms of Friday & Saturday, July 3 & 4 and Monday, July 27 quite well, all things considered. The basement flooded a little on July 4th but later dried out completely, and on July 27 it did not flood at all. On July 3rd and 6th we experienced several power fluctuations but it later stabilized. On July 27 we only lost power for a few seconds before it came back on. During the July 27 storms, some bolts in our awning over the drive-up came loose, but Joe was able to make repairs himself rather than having to call an awning company. Unfortunately, the keypad that disarms the staff workroom door on the first floor shorted out during the power disruption on the 27th, and that had to be replaced. Overall, we were very fortunate, especially compared to others in the area.

Additionally, Joe closed 24 building tickets in July. Highlights include: 1) Assembled a new heat press and cart for the Maker Studio, 2) Fixed a shelf on the train table in Littletown, and 3) Fixed caulking around the sink in one of the second-floor family restrooms.

Staff Training:

I did not conduct any staff training in July, but I did have the opportunity to catch up on continuing education opportunities for myself, including webinars on web accessibility, incident tracking, and technology in libraries. I was also fortunate to attend an Assistant Director's meetup in Schaumburg on Friday 7/24.

Meetings:

- Library Board meeting, 7/15
- Department Head meeting, 7/23
- Regular check-in meetings with Joe, twice/week (ongoing)
- Regular check-in meetings with Tony, once/week (ongoing)

Technology Highlights:

We've been experiencing ongoing issues with sudden computer restarts in the first-floor public computer area. Both Tony and NobleTec technicians have been working on the issue for several weeks now and have not yet been able to completely block the restarts, though since July 24 we have seen a sharp reduction in overall frequency.

Also, on July 31 SWAN completed a server migration that disrupted the authentication process we set up several years ago with LibCal. The result was that library guests could not register for IPPL Exclusive programs, book equipment-only Maker Studio appointments, or reserve study rooms through the public side of the website. Fortunately, the staff side still worked for these functions. We got it working again on Tuesday 8/4 with the help of both SWAN and Springshare, the company that owns LibCal.

Additionally, Tony closed 17 tech tickets in July. Highlights include: 1) Fixed an issue where some T&M staff laptops would not connect to the T&M workroom printer, 2) Worked with TBS to address a recurring issue with the coin tower by the public printers on the first floor, and 3) Wrote a procedure to document the procedure needed to mark a computer as out of service in MyPC.

A total of 49 teen volunteers generously volunteered 286 hours of time at the library this month.

One hundred seventy-one packets were taken for use by guests from the 2nd floor Seed Library, which is sponsored by the Darien Garden Club and maintained by Betty Cornfield, Associate.

Programming Highlights

In July, we had **90** programs attended by **4,550** guests. This programming number represents in-library programs (including passive programming) and outreach programming that includes an activity or presentation.

On July 8, 38 participants enjoyed the Sharing the Spirit of America: Statewide & Nationwide National Reading of the Declaration of Independence Drop-In program which was facilitated by Kate Kresek; Lucas Koprowski, Liaison; Amy Merda; and Laura Birmingham, Director. In addition to the 5 p.m. group reading of the entire Declaration of Independence, guests enjoyed opportunities to participate in the group recitation of the Pledge of Allegiance led by local veterans, enter a drawing for patriotic prizes, and create a patriotic button to take home.

Summer Reading

The Summer Reading Program, which began on June 6, showed strong participation this year. Guests again enjoyed multiple options this year including the choice of logging their reading on paper or through an app, and the choice of counting the number of books read or the number of hours read. New this year: a teen-only reading log was created with separate teen-only prizes, more grand prizes were added, and promotional yard signs were put up in Darien and Willowbrook parks. Over 3,050 guests registered for the program (including 643 ReaderZone participants) with a total of 1,346 guests turning in at least one log to fully complete the program. Many guests chose to turn in multiple logs to help fill the reading celebration box and increase their chances at winning the grand prize drawings.

Thirteen grand prizes were awarded this year (along with two additional prizes). These prizes included an art basket, outdoor play basket, Snap Circuits set, Goldfish Swim School month of lessons and plushie, Nintendo Switch Lite, snack basket, K-pop basket, anime basket, \$25 McDonalds gift card, \$50 Jojo Hibachi & Sushi gift card, 4-pack of Joliet Slammers baseball game tickets, \$50 Anderson's Bookshop gift card, pickleball basket, 4-pack of White Sox game tickets, and a \$25 Crave gift card. We are grateful to our sponsors: IPPL Foundation & Friends; Chicago

White Sox; Chick Fil-A in Willowbrook; Culvers in Darien; Darien Community Bank, A Wintrust Community Bank; Goldfish Swim School in Burr Ridge; JoJo Japanese Steakhouse & Hibachi in Willowbrook; McDonald's in Darien; Portillo's in Willowbrook; and Zazzo's Pizza & Catering in Darien.

We are grateful for the many Volunteers who generously donated their time to serve the IPPL community in helping support the many youth programs we offer each summer. Some of the programs they support include: Family Nights, Reading Buddies, Mission Math, Summer Reading Program table facilitation, Mid-Kids Garden Club, Mid-Kids Chess Club, and more. This year, 65 teens in June and 49 teens in July earned a total of 643 hours. Aron Ryan, Teen Librarian, who is the facilitator of the Volunteer program, tracks the teen hours and supplies “proof of hours” or recommendations to the teens as requested throughout the year.

Closing early the evening of Thanksgiving

The library is very slow the night before Thanksgiving. Here are some door count statistics for the past several years:

	2021	2022	2023	2024	2025
5-6 pm	60	67	51	43	59
6-7 pm	21	37	32	29	17
7-8 pm	22	15	23	17	9
8-9 pm	2	3	10	9	6

I would like the Board to consider closing at either 6pm or 7pm the night before Thanksgiving, which is Wednesday, November 25th. There is no school in session this day.

Staff schedules would be adjusted accordingly.

Talking Points about Discontinuation of Paper Towels

IPPL is removing paper towels from our restrooms and installing hand dryers.

Here are some talking points in case you get public comments:

- We hope to see a sharp decrease in plumbing issues. We have problems with clogged toilets at least once per week on average, and a lot of those issues come from people putting paper towels in the toilets. Once the paper towels are no longer in the bathrooms, this will be a far less frequent occurrence.
- The library has been spending \$250/month on average on paper towels. By making this change we will cut this cost down on supply costs, saving the library money.
- The hand dryers will reduce waste, also saving the library money.
- Less staff time is required; with hand dryers there's no need to re-order, unpack, monitor, manage, and refill paper towels and their dispensers, or troubleshoot the dispensers when they break or run out of battery power.
- The library has identified a type of hand dryer that runs more quietly than most other hand dryers ; this ought to make the noise levels tolerable in adjoining spaces to the rest.

Watchdog report on Cook County tax tech contract: 'Nobody's hands are clean'

Cook County's inspector general released a report Tuesday on the county's troubled decade-long [property tax system modernization](#), sharing some insiders' candid — and wholly anonymous — reflections on [what has gone wrong](#) and estimating the county has so far spent \$63 million on the project.

A "myriad of problems spread across all parties involved ... created a 'perfect storm' and severely delayed the implementation" of the county's new property tax system, which is still incomplete, Inspector General Tirrell Paxton's office concluded.

The office reviewed the original contracts with Tyler Technologies and spoke to leaders of the county's property tax offices and company officials from Tyler and two other contractors later brought on to provide oversight and project management.

Per office policy, the inspector general does not name the subjects of investigations, but the findings in Tuesday's report echo an investigation into cost overruns and intra-office strife by the Tribune and Injustice Watch involving different Tyler contracts, as well as Tribune reporting over the past year on property tax problems.

Those problems have contributed to cascading delays of property tax bills being sent out to homeowners and property tax revenues landing in taxing districts' bank accounts. There have been months of finger-pointing and the mess has cost tens of millions of taxpayer dollars.

Paxton's office said the county had so far paid Tyler and the two outside contractors \$63 million. That does not include the cost of maintaining the county's old mainframe system, which totaled tens of millions more. The original contract with Tyler was approved in 2015 for \$30 million.

Broadly, Paxton's report found the inherent structure of the contract, the size and complexity of property tax data and separation between offices made implementation hard: "key functions are divided among separately elected officials whose offices operate with significant autonomy," who saw senior staff turnover, shifting administrative priorities and slowed coordination.

Requirements weren't fully hashed out at the start of the project, changed midway through and "were interpreted differently by each separately elected office," the report said.

County office leaders also complained Tyler cycled through project managers and failed to dedicate enough staff to the project, while inside tax offices, the inspector general found the upgrade wasn't always overseen by subject matter experts who could make sense of the county's mainframe system or a smattering of auxiliary systems that had their own "unique formats, dependencies and historical practices" that weren't written down.

"Nobody's hands are clean. We fought for years, yelling and screaming," one Bureau of Technology official said of the early phases of the project, according to the report. The bureau, and the procurement office that originally inked the contract, are both under the office of Cook County Board President Toni Preckwinkle.

The county's Bureau of Technology eventually brought on an outside contractor to coordinate efforts. They should have done so sooner, the IG concluded.

In her written response to Paxton's findings, Preckwinkle conceded that doing so "could have facilitated more efficient tax-administration implementation and stability," but pushed back on other recommendations for procurement changes that would get the office more directly involved in managing performance.

Because of persistent problems, the county held back an estimated \$15 million from Tyler over four years, according to the report.

Paxton's report also concluded there was "evidence to suggest" Cook County Treasurer Maria Pappas' office "has been less than fully cooperative" with implementation — Pappas has been the company's loudest critic — and noted someone in the office "used highly offensive, demeaning and racially charged statements aimed at Contractors and County employees which delayed the project."

Pappas previously fessed up to using strong language and threatening company leaders' reputations, but told the Tribune any racially derogatory comments were taken out of context.

Tyler publicly blasted Pappas for "abuse" throughout the overhaul, eventually cutting her off from communicating with their staff directly. Paxton's office recommended "sensitivity training" for "relevant officials and employees," which Pappas agreed to, but only "on the condition that all county officials and employees also be required to undergo such training."

The Illinois Federation of Teachers sued Cook County Treasurer Maria Pappas Monday to try to force her to mail property tax bills [and compensate](#) school districts [for recent revenue delays](#).

The suit was filed in Cook County Circuit Court on behalf of the estimated 50,000 Cook County members of the state Federation of Teachers, including the Chicago Teachers Union and union members across the suburbs. It asks a judge to order Pappas to act "so that families and students in the City and the County will receive the education they have paid for and deserve."

It's part of the CTU's broader push for more funding as Chicago Public Schools [feverishly works to pass](#) a budget before the end of the month or risk missing the September payroll and the opportunity to borrow money short term.

While the suit adds pressure, it's unclear whether it can or will move the needle to get bills out the door faster. Pappas has steadfastly insisted the delays are occurring upstream of her office, and there's little she can do to move more quickly.

Pappas' office did not comment on the suit, but did say in a written statement that it anticipates sending CPS a chunk of money this week. The district has said it needs \$85 million to avert implementing furlough days.

[The years-long upgrade](#) of the county's property tax system has led to cascading pileups, but few easy fixes. County leaders and its lead contractor, Tyler Technologies, say they've been working overtime to address ongoing defects to pay taxing bodies what they're owed. County leaders are simultaneously playing catch up from last year's problems in order to get bills out the door by Sept. 1, with some optimism they could land sooner. In a

"State law has specific deadlines in it for sending the bills and distributing the money, and the state law doesn't really give the treasurer any discretion with respect to distributing the money," IFT attorney Stephen Yokich told the Tribune Monday.

"It's not their money, it's the money of the units of local government and the school districts," he said of the treasurer. That funding is desperately needed so schools can start the year with "their full complement of people and programs."

If the system upgrade is a multicar pileup still being cleared, local governments and individual taxpayers are stuck in the traffic slowdown.

Some schools and library districts, for example, are still waiting for final revenue from bills that were paid this spring. Meanwhile, [roughly 75,000 individual taxpayers](#) are due refunds and a few thousand are still waiting for bills from the last two cycles.

Throughout, Pappas has lashed out at Tyler and pushed through workarounds to get money out the door, including [manual direct deposits](#) to local governments around Christmastime and using AI to help work through the refund backlog.

The lawsuit attempts to force the treasurer to pay out all the revenues the office collected from March bills and "immediately prepare and mail" this year's second bills.

As part of its relief, the unions ask that the county compensate taxing districts that had to spend money to cover the cash shortfalls caused by property tax problems in recent cycles.

"Families deserve to know that elected officials at every level of government are doing their jobs," Stacy Davis Gates, president of the Chicago Teachers Union and the Illinois Federation of Teachers, said in a release. "And for the Cook County Treasurer, that means distributing the funds her office is charged with collecting for school districts, not sitting on them."

The cash-strapped Chicago school district estimates it spent \$40 million in interest because it had to borrow during the delay. Cook County Board President Toni Preckwinkle [is accepting loan applications](#) now to float some taxing districts until property tax money comes in later this fall and is considering adding CPS.

Preckwinkle spokesperson Hanna Fierle said Monday their "intention is to make sure these smaller taxing bodies have initial access to the bridge fund, but we are open to working with CPS if funds are still available."

Pappas cannot mail bills until her colleagues in other property tax offices finish their work. It's currently Cook County Clerk Monica Gordon's turn. Her office comes up with tax rates before Pappas' team performs final calculations and sends out the bills. Money typically starts flowing to districts a couple of weeks after property owners pay up.

"We intend to post tax bills on the Treasurer's website once we have the billing file and verify the numbers are correct," Pappas' office said.

The treasurer has held back about \$400 million from the last tax cycle because the office and Tyler still need to reconcile over- and underpayments to taxing districts from previous cycles. CPS estimates the district is still owed

"We continue to work with Tyler on reconciliation," Pappas' office said in the statement. "We anticipate distributing this week to CPS a significant portion of the \$70-80 million."

Though Pappas relies on other county officials to get accurate bills out the door, her office is the only named defendant because it holds the purse strings and is the sole office with a hard deadline to meet in state statute, Yokich said.

A month's delay adds up to several million dollars lost, he said. "Every day is money that goes down the drain completely that CPS will never be able to use to pay teachers and provide services and make sure students get their education."
